

USAID
FROM THE AMERICAN PEOPLE

Portals and Websites Associated with USAID Supported Projects

The following document presents an initial inventory of websites maintained by USAID partners which provide project related information. For the purposes of this inventory, those sites which have several non-USAID resources on a particular topic, including both links and documents, are labeled as 'portals'. Sites which primarily have information and resources concerning one USAID project, initiative or program are designated as 'project websites'. Please note that 'project websites' may have project related resources, information and research resulting from project experience, and links to sites of interest. As such, the sites may contain information of interest to other programs in the field.

Please also note that while an effort was made to include as many examples as possible, this document cannot be considered a comprehensive list.

Disclaimer: The information provided on these websites is not official U.S. Government information and does not represent the views or positions of the U.S. Agency for International Development or the U.S. Government.

All quoted information is from the cited Internet page.

This document was produced by USAID Knowledge Services Center for M/CIO/KM under contract: RAN-M-00-07-00005. USAID Knowledge Services Center is operated by Bridgeborn and Library Associates Companies.
